Dear Parent/Guardian:

This notice is to inform you that CHICKEN POX has been diagnosed in a child at this Head Start Center. This condition is contagious; therefore, we would like you to watch for symptoms in your child. The symptoms are as follows:

**MILD FEVER, COLD SYMPTOMS, FATIGUE (TIREDNESS), FOLLOWED BY AN ITCHY RASH ALL OVER THE BODY.**

If your child should develop one or more of these symptoms, please notify your child's health care provider and your child's teacher. Medical treatment should be carried out as recommended by your child's medical health care provider. A child diagnosed with Chicken Pox can return to the classroom six days after appearance of rash and symptoms are resolved. We are attempting to limit the spread of this illness/condition, and your cooperation is sincerely appreciated.

If you have any questions about this information, contact your child's teacher at the individual centers or the Head Start Health Services Director at (541) 564-6878. Thank you for your time and cooperation in this matter.

Sincerely,

\_\_\_\_\_  
Head Start Teacher

Amy Hendrix  
Health Services Director
