

Classroom Nutrition Care Plan
Name
Classroom
Nutrition Concern: BMI >95%ile (Indicates high weight for height)
<p>Classroom Plan:</p> <ol style="list-style-type: none"> 1. Encourage family to make/keep WIC appointments. Ensure that they know the date and time of their next WIC appointment. 2. Review Nutrition Assessment Record including family nutrition goal. 3. Individualize to ensure that child is engaged in at least ____minutes of gross motor play at school each day (i.e. dancing, running, balancing, hopping, rolling balls, etc.) 4. Plan at least one nutrition activity per month involving fruit, vegetables or whole grains. 5. Promote self acceptance and choose materials that show children of all sizes enjoying movement and healthy foods.
